1. (40 points) Name:

CS 315 - Programming Languages
Spring 2019-2020
Section 2
Quiz 5

2. Assume the following function definition in the Python language.

```python
def fun(n):
    for x in range(2, n, 4):
        if(x % 3 == 0):
            print('AAA')
            break
        else:
            print('BBB')
```

What are the results of the following 6 calls?

fun(3)
fun(5)
fun(12)
fun(4)
fun(8)
fun(6)

Answers:

BBB
BBB
AAA
BBB
AAA
BBB
